

PRESS RELEASE

SEATTLE TOOL™ GOES EAST

Our aviation grade products were designed to push the boundaries, so it's only natural that we keep moving across the country. Vast-Auto Distribution, which operates three warehouses in strategic locations in Québec and Ontario, is proud to be the newest distributor of the Seattle Tool brand of products.

“The quality and unique finish of Seattle Tool products stand out. That’s an advantage our network of stores need in today’s very competitive market,” says Patrick Dubois, Director for Tools and Equipment at Vast-Auto.

“The packaging is very professional and makes for an easy ice breaker when our jobber sales representatives call on customers. Seattle Tool was very approachable and supportive of this new venture, the support provided by their team was second to none.”

Vast-Auto is part of the Aftermarket Auto Parts Alliance, the largest aftermarket group in North America. For more information visit www.vastauto.com or www.alliance1.com

The Seattle Tool logo, featuring the brand name in a stylized, metallic, gothic-style font with a sword-like flourish underneath. The logo is set against a dark, textured background that matches the top of the page.
